

Generated: June 2026 · Confidential

Platform Snapshot

Current live data pulled directly from the Wakanda Jobs production database.

19,556 Total Jobs	16 Countries	4,912 Companies in DB	22 Active Agents	1,342 Applications
---	------------------------------------	---	--	--

Critical gap: 100% of jobs are crawler-sourced. Zero employers have posted organically. Zero direct employer revenue beyond manual sales. This is the #1 problem the plan solves.

Agent Performance — Top Countries

Country	30-Day New Jobs	Jobs Yesterday	Efficiency (jobs/run)	Verdict
 South Africa	11,263	644	53.9	Star performer
 Nigeria	2,328	239	13.4	Scale now
 Kenya	1,417	108	5.1	Scale now
 Zambia	1,071	44	0.9	Near ceiling
 Mauritius	582	60	2.1	Niche
 Tunisia	613	18	2.2	French market
 Ghana	431	20	1.6	Monitor
 Zimbabwe	365	24	2.4	Monitor

Key insight: South Africa produces more jobs in 3 days than Zambia produces in a month. Your infrastructure is already in place — you need the social media accounts and employer sales to monetise it.

Revenue Model — 6 Streams Ranked by ROI

1. Employer Job Postings Highest Priority

You have 4,912 companies in your database. Every one of them is already advertising jobs — just not on your platform. That is a warm lead list most startups would pay thousands for.

Package	Jobs	Duration	ZMW Price	ZAR Price
Starter	1 job	30 days	K150	R250
Growth	5 jobs	30 days	K500	R800
Business	Unlimited	30 days	K1,200	R2,000
Enterprise	Unlimited + featured	90 days	K3,500	R5,500

Target: 10 Zambian employers in Month 1 = K8,000. 20 SA employers by Month 4 = K24,000.

2. VIP WhatsApp Alerts Unique Moat

Currently 11 active subscribers. No other Zambian job board delivers personalised jobs to WhatsApp. This is your defensible differentiator.

Plan	Duration	Price	Target subscribers	Monthly revenue
Weekly trial	7 days	K20	200 paying	K7,000–10,000
Standard	30 days	K50		
Premium	90 days	K120		

3. Career Services High margin

Service	Price	Turnaround
AI CV Score + feedback	K50	Instant
CV Review (human)	K150	24 hrs
Professional CV Rewrite	K350	48 hrs
CV + Cover Letter + LinkedIn	K550	72 hrs
Interview Coaching (1hr)	K400	Booked session

Target: 10 orders/month = K2,500–4,000. You already have 6 power users applying to 200+ jobs. Email them today.

4. Salary Reports Infrastructure exists, zero published

The salary report system is built. You have 19,556 jobs across 16 countries with categories, locations, and posting frequency. That IS the data for a salary report — no surveys needed.

Report	Price	Time to produce
Zambia Salary Guide 2026 — IT & Tech	K500	1 week
Zambia Salary Guide 2026 — Finance & Accounting	K500	1 week
South Africa vs Zambia Salary Comparison 2026	K800	2 weeks
East Africa Hiring Trends Q2 2026	\$80 USD	2 weeks
West Africa Labour Market Report 2026	\$80 USD	2 weeks

Buyers: HR managers, NGOs, development banks (AfDB, World Bank), consulting firms, multinationals entering Africa.

5. WhatsApp Channel Sponsorship New — untapped

Your automated channels post 375+ SA jobs daily, 225+ Nigeria, 100+ Kenya. Companies pay to have their logo/tagline on every post, or to have their jobs featured first each morning.

- Channel sponsor: K500–2,000/month per channel
- "Jobs by [Sponsor]" branding on posts
- Virtually no one is selling WhatsApp advertising in Africa yet

6. Featured Listings & Data API

- Featured job listing: K100–200/week
- Employer profile spotlight: K500/month
- Raw data API access (for other HR platforms): \$200–2,000/contract

Country Expansion — Prioritised

🇿🇦 South Africa — Immediate (agents already running)

11,263 new jobs in 30 days. Largest professional LinkedIn + Twitter/X user base on the continent. English-speaking. Highest employer revenue potential. **Set up Facebook Page, LinkedIn Company Page, and Twitter/X account now.** SA employer packages priced in ZAR make them accessible. One Enterprise client = R5,500 (~K2,500).

🇳🇬 Nigeria — Month 2-3

2,328 jobs/month. Largest population in Africa, massive Twitter/X usage (one of highest per-capita globally). Lagos/Abuja professional LinkedIn scene growing fast. Jobberman and MyJobMag are established — position Wakanda Jobs as the WhatsApp-first alternative with pan-Africa reach.

🇰🇪 Kenya — Month 3-4

1,417 jobs/month. East Africa anchor. "Silicon Savannah" — Nairobi has the most tech-forward job market in the region. One Kenya account effectively serves Uganda (305 jobs), Tanzania (85), and Rwanda (173) too. Strong NGO sector = salary report buyers.

What to skip for now: Tunisia, Morocco, Cameroon are real markets but French-speaking — treat as a separate Francophone Africa product track. Zimbabwe and Mauritius are too small for dedicated accounts until SA/NG/KE are established.

Marketing Strategy & Ad Budgets

Two audiences, two strategies

Job seekers → Facebook & Instagram + Google Search. They're looking for you. Make it cheap and easy to find you and subscribe to WhatsApp alerts.

Employers → LinkedIn + direct outreach. They don't know they need you yet. You need to reach them where they are and make the first step free.

Market	Channel	Monthly Budget	What it buys
🇿🇦 Zambia (now)	Facebook (job seekers)	\$50-100	500-1,500 WhatsApp leads
	Google Search	\$30-80	500-1,500 high-intent visits
🇿🇦 South Africa (M2-3)	Facebook/Instagram	\$150-300	2,000-5,000 subscribers
	Google Search	\$150-300	1,500-4,000 visits
	LinkedIn (employers)	\$150-300	50-150 employer leads
🇳🇬 Nigeria (M4-5)	Facebook	\$80-150	Very cheap CPM, high reach
	LinkedIn (employers)	\$100-200	Lagos B2B market
🇰🇪 Kenya (M5-6)	Facebook	\$80-150	Nairobi professional reach
	LinkedIn (employers)	\$100-200	Tech + NGO sector

The one metric that matters: Cost per WhatsApp subscriber. Target under \$0.50 in Zambia, under \$1.50 in SA, under \$0.80 in Nigeria. If you hit those numbers, the VIP upsell covers your ad spend.

Revenue Projections

Revenue Stream	Month 3	Month 6	Month 12
Employer packages — Zambia	K8,000	K15,000	K25,000
Employer packages — South Africa	—	K12,000	K35,000
Employer packages — NG + KE	—	—	K20,000
VIP WhatsApp Alerts	K2,000	K8,000	K20,000
Career Services	K2,500	K5,000	K12,000
Salary Reports	K2,000	K8,000	K25,000
Featured Listings + Sponsorship	K1,000	K6,000	K18,000
Total (ZMW)	K15,500	K54,000	K155,000
Total (USD approx)	~\$700	~\$2,450	~\$7,000

90-Day Execution Plan

Week 1-2: Employer Outreach (Cost: your time)

- Export top 200 Zambian companies from DB that have the most active job postings via crawlers
- Send this exact WhatsApp message: *"Hi [Name], I noticed [Company] is hiring for [Role]. I run Wakanda Jobs — your vacancy to our WhatsApp subscribers. First post is FREE for 7 days. Interested?"*
- Target: 10 employers sign up → convert 5 to paid package at K500 avg = K2,500

Week 2-3: Candidate Acquisition (Budget: K300-500 Facebook ads)

- Run Facebook lead gen campaign: *"Get matching jobs sent to your WhatsApp daily — from K20"*
- Landing page collects phone number → instant WhatsApp welcome → VIP upsell
- Target: 50 new subscribers, 10 paying at K20-50 each = K200-500

Week 3-4: First Salary Report (Cost: your time)

- Write "Zambia Salary Guide 2026 — Finance & Accounting" using your job posting data
- Publish via the existing salary reports system at K300-500
- Promote to LinkedIn HR groups, Facebook, email list

Month 2: Career Services Push

- Email the 6 active applicants (1,342 applications between them): *"You've applied to 200+ jobs. Let us review your CV — K150."*
- Add career services CTA to every job listing page
- Add CV review upsell to the job alert welcome message

Month 3: Launch South Africa

- Create SA Facebook Page, LinkedIn Company Page, Twitter/X account
- Run Google Search ads: "post a job south africa" — budget R2,000/month
- Direct LinkedIn outreach to 50 SA HR managers
- Publish "South Africa Hiring Trends Q2 2026" at R200

Data Gaps to Fill Now

Gap	Why it matters	How to collect
Candidate profiles (only 19 registered)	No CV database = can't sell employer access	"Register to apply in 1 click" prompt on every listing
Salary self-reports	Real salary data from real people	Add "What's your current salary?" to registration
Application outcomes	Proof platform works = best marketing	Email candidates 30 days post-apply
Employer contacts	You have company names, not decision-maker emails	Research/enrich top 100 Zambian employers manually or via LinkedIn
